

CLEANING RECOMMANDATIONS

- It is recommended to clean minimum once a year.
- General cleaning :
 - Washing with water + neutral soft detergent (pH between 5 & 8)
 - Afterwards rinsing with water & wiping with a soft and absorbing rag
- To remove a higher degree of dirtiness : bristle or nylon brush
- To remove oil, grease or adhesive residues : white spirit, Methyl-Ethyl-Ketone, Turpentine, Kerosene, ...
- To be avoided :
 - Agressive products like washing powder, detergent products for dishwasher, strong acids and strong alkaline products
 - Contacts with abrasive agents such as sand, steel, wool, glass paper
